MESSAGE FROM THE PRINCIPAL

I am immensely pleased to present to you another impressive record of our institution which has honed and fine tuned the skills of numerous young talents. Each student is groomed and nurtured to reach his/ her full potential, and we create hundreds success stories each year. With great pride and happiness, I would like to place on record that the main strength of our institution is its adaptability. Challenges were many, but we faced it with the help and guidance of the noble hearts who are with us through out in our journey of excellence. Over the past decade, we have strengthened our institution on various levels and each member of our team has contributed positively. Now, time has come to review all the work we have done for the past few years , and in the coming months we will scrutinize more so that we will be able to sustain the best practices and find out ways for improving it further. The pandemic couldn't stop our student centric activities and VCET moved ahead with all academic and co curricular activities which surely must have met the expectations of students and parents. I convey my best wishes to the faculty and students for a greater success in the forthcoming days.
